Done

- a. **General:** Allows you to:
 - i. Change your start in feature (your landing page in IQ)
 - ii. The color theme of your IQ5, and how many squares wide your menu will be when switching applications
 - iii. Choose to open or hide the views menu when changing features
 - iv. Choose to automatically Open the filters panel when navigating to View
 - v. Choose to ensure the Record Detail Panel is closed by default
 - vi. Choose to permanently maximize the width of the record detail panel when viewing single records
 - vii. You can select “Quick Actions” to pin actions to the action bar
 - viii. You can also add different IQ5 Applications as additional “Quick actions” as shown above
 - ix. You can also save Favorites to the action bar as well. This will allow you to access these actions, apps, and favorites at any time from the left-hand side of your screen:

- x. You can select users to “act as” your role
- xi. You can also choose to act as another user in your office, if given access

- b. **Messages:** Allows you to choose to include the Congressional District in Message lists or include the incoming/outgoing message in message lists.
- c. **Services:** Allows you to add any Services as their own Applications in the IQ5 menu, add a default Service type when creating a new Service, choose if the UDF section in Service lists should be automatically expanded, choose whether or not to display the address of attached Contacts in the reading pane.
- d. **Library:** Allows you to set a default directory for new Form Letters to be saved, as well as selecting a default Form Letter template.
- e. **Events:** Allows you to set default settings when creating new events, including which calendars the new event will be saved to and the duration of new events.
- f. **Outlook:** Allows you to connect your Outlook email account to IQ5.

3. **Reset Other Settings** allows you to reset or clear particular application settings as shown below:
