

Creating/Updating Issue Codes

Market: House, Senate

Description: These instructions teach users how to create **Issue Codes** which tag incoming and outgoing messages with the issue they concern. These codes can be customized to be assigned to individual staffers and have phone scripts for staffers to read from when logging a call concerning that issue.

Create an Issue Code

1. Navigate to the **Messages Application**
2. Click on the  icon.
3. Click on **Issue**.
4. Click **+New → Add Issue Code**

5. Fill in the following fields as needed:
 - a. **Code:** The name of the code that will appear when searched (i.e. AGR, FIN, etc.)
 - b. **Translation:** The description of the code (i.e. Agriculture, Finance, etc.)
 - c. **Assigned:** The staffer who will be automatically assigned all Messages with this Issue code.
 - d. **Default Approver:** The staffer who will be the default approver for all outgoing requested approval messages with this issue code.
 - e. **Suggested Phone Script:** The script that will appear when logging a phone call with this issue code.
 - f. **Pro/Con/Neutral:** Check this box to have IQ automatically generate pro, con, and neutral issue codes.
