

## Completing a Service Record

**Market:** House, Senate

**Description:** These instructions teach users how to complete a service template.

Click the following links to be brought straight to the following topics:

[Attaching and Removing Contacts](#)

[Adding Attachments](#)

[Adding Notes](#)

[Logging Phone Calls](#)

[Creating Custom Alerts/Sending an Information Copy](#)

[Add/Remove a Monitor](#)

### Completing the Detail Page

As soon as you create a new Service, regardless of type, the user is redirected to the **Detail Page**, which is the template that is customized for that service.

1. In the **Summary** tab, enter in the details in the **Description** field for the Casework (or other service).
2. Click in the first box of the **Alert** field to select a date that you want to be Alerted on to follow up with this Service. Click in the second box to type in the time the Alert should occur.
  - a. **Note:** if you leave the time field blank, it will default to midnight on the date that you have chosen.
3. Type in a **Service Code** to indicate which Federal Agencies (if any) are going to be involved in this Service.
  - a. **Note:** For a **Casework** service, you must have **at least one** service code in this field in order to complete the service. For other Services, such as a **Flag Request** there may be a unique service code that appears for you.

The screenshot shows the 'Edit Casework' window with the following details:

- Summary Tab:**
  - Description:** Needs passport expedited.
  - Opened:** Date 04/17/2025, Time 04:45 PM
  - Alert:** Date mm/dd/yyyy, Time --:--:--
  - Service Codes:** STATE - Department of State
- Activity Tab:**
  - Buttons: Add a note..., Post
  - Search... field
  - Filters: All (selected), Message, Notes, Attachments
  - Process Case Begun 4/17/2025 - 04:45 PM
- Bottom Bar:**
  - Navigation: Previous, Next, Complete
  - Case ID: ID#802272, Row 1
  - Buttons: Save & Close, Save, Close

4. Continue to complete the information in the different tabs of the case -- **Summary and Case Information**. Note that tabs displayed can be unique to each office. Fill out the fields as you have the information. Remember these fields will change based on the Service chosen. You do **not** need to fill out all these fields at the time the Service is opened.
5. Click **Save & Close** or **Save**.
  - a. **Save and Close:** Saves the entered information and returns you to the previous screen you were on.
  - b. **Save:** Saves the information entered without closing it. Allows you to save your work as you go.

### Attaching and Removing Contacts

1. If the Service was created from the Contact Record the **Primary Contact** field will have that Contact attached already. If the Service was created anywhere else, click the  icon next to **Other Contacts**.
  - a. **Note:** There can only be **one** Primary contact for each service.
2. Use the **Find** or **Find and Add** tabs to search for Contacts in your database or create a new contact to attach to the Service. Click on the **Agency Contacts** tab to search your database for any Contact records that are tagged with the same Service code associated with your selected Service. Once found, select the Contact and click the **Attach to Service** button.

## Adding Attachments

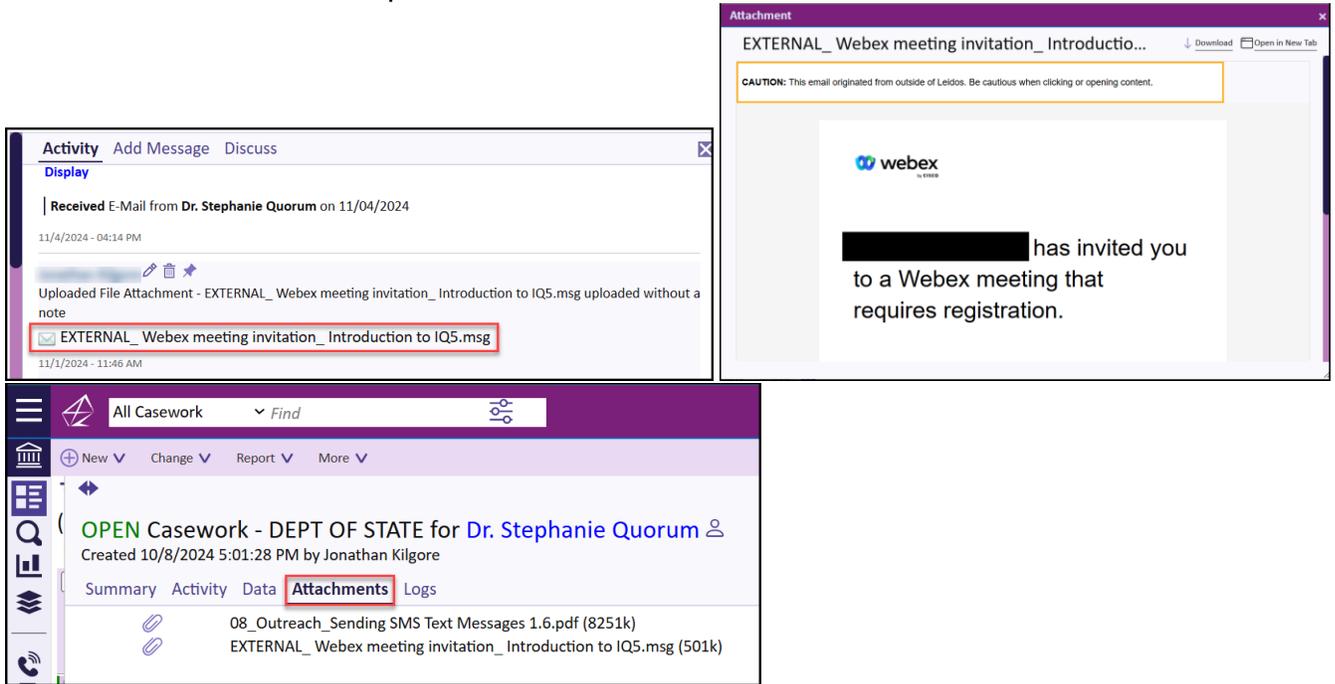

1. Click either the  next to the **Actions** button, or click the  next to **Attachments**, and select **Attach File**.

2. In the Add Attachment window, enter the Note Text, if desired, and either:
  - a. Select a file to attach; or
  - b. Drag and drop the file into the text box.

3. Click **Save**.
4. Review your attached documents in the **Activity** section or download them in the **Attachments Tab** at the top of the service.

[Top of Page](#)

### Adding Notes

1. Within the Open Service, click on the field directly under **Activity** and type in your **Note**, then click **Post**. **\*Note:** Each note has a 4000 character limit.

### Logging Phone Calls

1. Click the  button underneath the Note text area.
2. Type in the name of the **Contact** that you are calling/have received a call from.
3. Select the **Call Type**, either **Incoming** or **Outgoing**.

4. Type the details of the call in the **Note** section.
5. Click **Attach**.

### Creating Custom Alerts/Sending an Information Copy

1. Click the  icon underneath the Note text area.
2. Click into the **User** field to select the User(s) this will be sent to.
  - a. **Note:** If creating a **Custom Alert** choose yourself as one of the Users in this field.
3. Click into the **Group** field if there is a Group of Users that will be receiving this Information Copy or Custom Alert.
4. If sending a **Custom Alert** check the **Send Alert Later** box.

- a. The **Send On** fields now appear. Click into the **Date** and **Time** fields to choose when and at what time the Alert will send.
- b. Type into **Subject** the name of the Alert. For Example, “Call Primary Contact today”.
- c. Type into **Message** the details of the Alert. For Example, “Primary Contact has not been contacted in 30 days as of this alert. Call today with update.”
- d. Click **Save**.

5. If sending an **Information Copy** type in a **Subject** line that will appear in the Users email.
  - a. Type into the **Message** field the body of text that will be sent to users.
  - b. Click **Save**.

### Add/Remove a Monitor

1. Click the  icon underneath the Note text area.
2. This opens the **Edit Service Monitor** dialog. By default, it will start on the **Add Monitor** tab.
3. Choose whether to **Alert** the monitor on Status Change and whether to Alert **Until Service is Complete** or **Until Current Step is Complete**.
4. Select the **User(s) or Group(s)** that will be Monitors for this Service.
5. Type into the **Alert Text** field what the Alert should say when sent to the Monitor(s).
6. Click **Save**.
