Viewing Demographic Data

Market: House/Senate

Description: These instructions teach users how to to view voters' demographic data by State, County or District levels. In IQ, users can view demographic statistical data such as household income, education level, number of children, etc. that can better inform the office staff about the constituents they serve.

- 1. Navigate to the LegiStats module.
- 2. Under **Demographics**, select State, District, or County. In this example, we will choose **State**.
